Annette Arabasz
Front End Developer

OVERVIEW

Developer with over ten years of website production experience. Highly organized and dependable individual who most enjoys working on visuals and UI interactions.

EXPERIENCE

Mad*Pow
Managing Director of Creative Technology | 2012-Present
- Managed and mentored Creative Technologists, helping to set personal goals and nurture individual talents
- Developed websites using HTML, CSS and JavaScript with mobile-first (responsive) design practices.
- Regularly attended pitches for new business as a web subject matter expert

Girl Develop It
Chapter Leader | 2013-2015
- Helped create the first Boston chapter of a national non-profit focused on providing affordable and accessible coding classes to women.
- Provided mentorship to women making career switches to computer programming.

Isobar
Interactive Developer | 2011-2012
- Developed websites using primarily HTML and CSS.
- Contributed to the *Isobar Front-end Code Standards Guide*
- Part of the first-prize-winning team at the *Create48* hackathon. Our team designed and built a simple Android app to address long waits at crowded bars.

Connelly Partners
Web Designer/Developer | 2008-2011
- Developed websites using HTML and CSS. Majority of work was code-to-comp, with emphasis on pixel-perfect design.
- Provided technical support and CMS training to clients
- Mentored web interns with focus on improving code quality and strength-
